

Current Residents:

Stephanos Gozali

Pharmacy School: Doctor of Pharmacy, the University of Maryland Baltimore

Undergraduate: Bachelor of Science in Biology, Salisbury University

Hometown: Salisbury, MD

Research: Retrospective Analysis of Terminally ill Patients Who Arrive to the Emergency Room in a Community Hospital

Why PRMC: I choose PRMC because the residency program offered exciting opportunities such as palliative care and a multiplatform teaching experience. I am also a resident of the eastern shore and I value giving back to the community that I have been a part of for the majority of my life. Thus, being a part of PRMC will allow me to grow as a pharmacist and provide healthcare services to the community I love. I completed my first Advanced Pharmacy Practice Experience (APPE) at PRMC and my experience as a student set the foundation for me to succeed in all other APPEs. Therefore, I believe that my experience here as a resident will set the foundation for me to become the best possible pharmacist I can be.

Victoria Hearn

Pharmacy School: Doctor of Pharmacy, University of Maryland Eastern Shore

Undergraduate: Bachelor of Science in Chemistry, Salisbury University

Hometown: Seaford, DE

Research: Evaluation of fluoroquinolone prescribing at a community hospital following the FDA's advisory against overuse

Why PRMC: I chose PRMC because it provides an environment that will allow me to learn and grow as a resident and new practitioner. The wide variety of specialty services provided, a passionate and dedicated staff, and the diverse patient population are factors in what has created the exceptional residency program. I'm excited to be a part of this great organization. Additionally, as a lifelong Eastern Shore resident, I feel honored to serve the community that has surrounded me throughout my life.
